Tracking Trends Towards The Tribulation

By Jan Markell

Another year will soon close out, and like previous years, I am tracking this year's astounding developments. Who could have imagined some things? Everything is ramping up: technology ability, evil, lawlessness, apostasy, and more.

Here are just ten items I am highlighting as we wind down 2026.

1. People are without natural affection (Romans 1:31; 2 Tim. 3:3)

The Lindsey Clancy case captivated the world. A woman strangles three children and the world—particularly those on the left—celebrates her. And make feeble excuses, blaming it on her mental health. The lone juror who would not go along with the jury who sided with her, is in fear of his life. Women around the world are copying Lindsey and killing their children.

2. Islam is trying to conquer the West and is succeeding to some degree.

I know. I live in “Mogadishu on the Mississippi” —Minneapolis/St. Paul, MN. We are swamped with unassimilated Muslims, many of whom are criminals. They defrauded us out of billions of dollars as was exposed by Nick Shirley.

Churches are being transformed into Islamic centers. They hope to have an Islamic state somewhere in America by 2050. And post-rapture, when all real Christians are gone, Islam will be the dominant religion in many places.

3. The “falling away” (2 Thess. 2:1-3), or departure from the faith, is collapsing churches and denominations.

It takes people years to find a church that is not embracing false doctrine. Very few of them will talk about the Lord's soon return or Israel's important role. Few will denounce abortion or antisemitism. The “seeker” movement may have lost its steam, but the tactics never left once it hit in the 1990s.

What you will find now is rainbow clergy vestments, transgender church leaders, and pride or trans-themed messages. The point is, every attendee must “feel good.” Feel safe. Except the Bible-believing Christian.

4. There is a staggering rise in occult-laced themes and practices in every aspect of society.

Sadly, most Christians and churches treat demons as leftover superstition the modern world has outgrown. How wrong they are! I have had them visit me on two occasions and make so much noise that all my pets woke up! Today, there are more self-identified Wiccans in America than Presbyterians.

Even a casual search for “witches” on the online discussion forum Reddit, or the online marketplace Etsy, reveals that black magic is not uncommon today. Over 5,000 items dealing with curses are currently for sale on Etsy. *Hollywood has glamorized this and our churches don't warn against it!*

5. Artificial intelligence is transforming society, and it came into prominence only in the last 5-10 years!

Anthropic and Open-AI warn that there is a greater than 10% chance of AI killing all of humanity within this decade. Perhaps a silly statement, but it

is a warning. Some are calling AI the world's greatest super weapon, while others call it a god in a box.

Yes, the Antichrist will use it to rule his one-world kingdom, so it's getting a lot of practice in this Church Age, and has already proved itself to be the most powerful tool we have ever known. And the most frightening. Christians can use it for good, but understand that it will one day rule the world in the Tribulation. (see article on page 16)

6. The "blame the Jews" sentiment is epidemic as she becomes the world's burdensome stone (Zech. 12:3).

And ironically, this anti-Jew sentiment was ignited right after Israel was attacked on October 7, 2023. She was the victim, *but the world had sympathy for the devil*— Hamas and other outfits that hate the Jews.

In early September of this year, a plane from Dubai to Tel Aviv was taken over by a terrorist. Only a miracle from God stopped the intended carnage; however, it took only one hour for social media to declare the insanity that Israel was behind this. (see page 20)

7. America faces problems that will lead to her demise.

The world's superpower will not always be that as we have seen this year!

The financial pressure on American households is becoming increasingly difficult to ignore. Cost of fuel—particularly diesel—is quickly making life unaffordable as well as higher interest rates. *What happens when farmers can't afford the next crop?*

And how does one deal with \$40 trillion in debt as America is? That is an economic problem that only the Antichrist will solve. Sadly, the Left says socialism is the answer. Socialist candidates are winning in local and national elections. And in 20 years, the *Statue of Liberty may be wearing a burka*.

8. Romans one thinking is slowly taking over America and the West.

People have a debased mind now. In Canada, it is cool to assist your grandmother with "medical assistance in dying." A recent poll of Democrats reveals that 29% of them would be fine with removing Donald Trump from office *through assassination*. Much of the world is fine with the fact that 2,300 female athletes have lost to biological males. Mankind has been given over to sinful desires.

9. Our every word and action are being monitored.

Big brother is busy—spying. Technology is listening and watching our lives—and storing that information, likely for nefarious purposes. Imagine the implications in a doctor's office, counseling session, business meeting, or classroom. And we're not even aware of the hidden cameras and microphones.

10. Europe is on fire, engulfed in turmoil.

There are major protests, political shifts, and conflicts across the continent. Other than a remnant, it is now a Godless continent and unlimited Islamic immigration has caused irreparable damage. This is setting the stage for the Antichrist who will arise out of the old Roman Empire. *He will promise to fix it.*

These are ten issues I note that define the last year. There are dozens more. Space is limited. The good news is that they all are a herald of His coming. They are telling Christians to expect a trumpet and a shout, and a mass evacuation from a sin-sick world.

Jan Markell and Michele Bachmann as co-hosts in our video update *Falling Into Place*.

For over twenty-five years, **Jan Markell** closed every broadcast stating that “**things are not falling apart—they are falling into place.**” Now she and **Michele Bachmann** are introducing an online presentation with that title: *Falling Into Place*. They will review current events in light of the Bible and provide insights to help viewers understand the times and become watchmen on the wall.

We are tapping into many online platforms. You can find the presentations at our website, www.olivetreeviews.org, under “Video,” (ad free) as well as on our **YouTube channel, Rumble channel, Real Life Network, Harpazo Network, His Channel TV, OnePlace.com, Lightsource.com**, all our social media, and more.

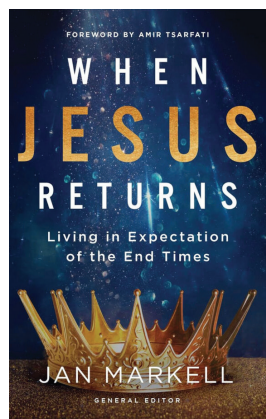

We hope to air these broadcasts twice a month.

Michele Bachmann served in the U.S. House of Representatives—representing Minnesota’s Sixth District from 2007–2015. She ran for President of the United States in 2012. She currently is a part of *Regent University’s Israel Institute*.

Jan Markell stepped down from radio a year ago to focus on other ministry responsibilities and to redirect funds to our Israel outreach, *L’Chaim Israel* (see page 8). We are directing between one and two million dollars a year to this effort.

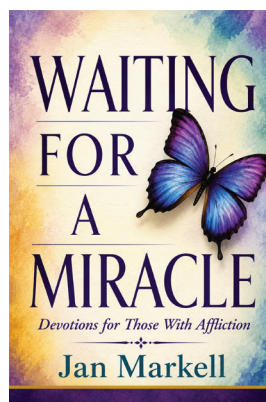

Inspirational Books for Gift Giving **When Jesus Returns and Waiting for a Miracle**

We are offering two of Jan Markell’s latest books as year-end gift-giving arrives. **When Jesus Returns: Living in Expectation of the End Times**, is a compilation of last days’ messages by some of the best scholars and commentators of our day. Contributors include Amir Tsarfati (foreword), Jack Hibbs, Barry Stagner, Ed Hindson, Michele Bachmann, Anne Graham Lotz, Jan Markell, Erwin Lutzer, and Jeff Kinley.

As these powerful messages stoke your trust in God’s glorious plans for the future, you will be empowered to live with boldness and readiness like never before!

One reviewer—Brenda—says, “Very, very good book! Very informative, from several pastors/authors who know the Word of God! This has been one of the top books I have read on end-time prophecy! I have shared this book with several people, and they all have gotten a better understanding after reading it! I can’t recommend this book enough!”

Baker Book House published Jan Markell’s book, **Waiting for a Miracle: Devotions for Those With Affliction**, in 1993. This is a devotional book for those who suffer from chronic illness, undiagnosed illness, and general suffering. Olive Tree Ministries has updated it and re-published the book this summer.

One reviewer—Betsy—says, “I want to share with you what a blessing your book has been for me. I just read chapter 7 and it was exactly what I needed to see today. I think I’ve said that about each chapter as I’ve read them. I have an invisible illness. It has been such a challenge to accept the loss and the pain, but your book has helped me so much.”

So many suffer and many suffer privately. Their lives may be ruined, yet few understand. This book has ministered to thousands.

The Lord is Close to the **Brokenhearted:** Meeting the Crisis in the Land.

By Jill Martin Rische

Israel reps Jean DeJong and Jill Rische with support puppies.

There is a profound biblical truth in Psalm 34:18—that the Lord is close to the brokenhearted and saves those who are crushed in spirit. Today in Israel, God's work of restoring the soul is taking a unique and loving form: one wagging tail and unconditional puppy hug at a time. As Israel navigates deep emotional trials amid the ongoing threat of war, God's healing hand is moving near the Sea of Galilee.

Animals Are Living Safety Nets

Olive Tree is blessed to be directly involved—on the ground, providing loving dogs for emotional support training to those in need. We sponsor these intelligent, beautiful dogs *that are literally living safety nets in the fight against pain and suicide in Israel.*

Yaniv, a world-class trainer of emotional support dogs, is well-known in Israel as a man who fights to pull trauma survivors and soldiers out of the darkest corners of PTSD, depression and anxiety. Because of your generous gifts, prayers, and support, we've been able to come alongside him to help.

The best thing of all, though, is that he knows we are Christians and he welcomes us into the kibbutz and the local community. We've been invited to provide biblical truth to anyone wishing to hear it, as we work near these incredible animals.

Trauma Surges in the Land

The mental and emotional toll of defending Israel has reached unprecedented levels. According to recent public health data, PTSD diagnoses across Israel's general population have *surged by 70% since the outbreak of hostilities.*

The Israeli Defense Ministry reports a 40% spike in PTSD cases among its troops, with projections warning that the number of soldiers needing help could rise by 180% in the coming years. Behind these staggering numbers are real human lives—young fathers, mothers, teenagers and children, wrestling with severe sleep disturbances, terrifying flashbacks, and debilitating anxiety.

As iron sharpens iron, so one person sharpens another.

Proverbs 27:17.

A Journey of Restoration

What makes Yaniv's work truly revolutionary is his unique, rehabilitative training model, which beautifully mirrors the wisdom of Proverbs 27:17. Instead of traditional programs where an animal is trained in isolation and handed off to a survivor, Yaniv requires individuals undergoing

rehabilitation to actively participate in the process. Soldiers and family members are paired with golden retrievers, labrador retrievers, Australian shepherds, and spaniel puppies between 7 and 12 weeks of age.

The healing lies in the special bond that only God could create between humans and His wonderful creatures. By taking responsibility for their puppies from infancy, broken soldiers and devastated survivors are forced out from behind isolating walls.

The dogs can sense stress behavior in their person, and jump on their lap or nuzzle their neck to draw them out of a downward cycle of fear and panic. Their families become healthier and through the training, they are building a community of friends they can trust.

One soldier shared that he could not get out of bed, but because his dog needed to be fed and walked, he had to get up and face the day. A young woman who survived the Nova festival attack on October 7, 2023 can't speak of what she experienced, but with her dog near, her smile returns.

Jean DeJong, dog trainer Yaniv, and Jill Rische

“God Formed Every Beast of the Field” — The Divine Design of Comfort

The results of this hands-on approach are supported by emotional testimonies and medical science, highlighting the profound purpose behind God's creation of animals in Genesis 2:19.

Under Yaniv's guidance, these canine partners learn to identify physiological signs of distress, such as a rapid pulse or heavy breathing. When a flashback

or panic attack strikes, the dog intervenes directly—disrupting the distress by licking its handler's face or applying gentle “hug” pressure to calm their central nervous system. The simple act of bonding with their dog causes stress hormones to plummet.

“Pray for the Peace of Jerusalem”— Standing in Faith with Israel

For Christian supporters who stand unyieldingly with Israel and heed the call of Psalm 122:6, the work happening in this kibbutz brings tangible hope and a joy in knowing God is allowing us to make a difference. Thanks to all of you who have stood with us prayerfully and financially.

To date, Yaniv's program has successfully placed and overseen the training of countless emotional support dogs across the country, providing free monitoring and love. It is a striking testimony to the Israeli spirit—a nation that refuses to leave its wounded behind.

This beautiful ministry of canine companionship reminds us all that *God's healing grace is possible, and that Israel will never walk alone.*

How You Can Support and Pray for Israel's Healing

Psalm 23 tells us, “He restores my soul.” As a community of faith, we can actively participate in this beautiful work of restoration. This is just one aspect of our *L'Chaim Israel* (to life!) program at Olive Tree Ministries. We reach out in Yeshua's name (Jesus). Thanks to your donations towards this program, we are coming alongside other ministries and believers. The outreach also assists in distributing Bibles and provides support for those engaged in biblical counseling. We have built bomb shelters and more.

If you would like to be a part, send a check marking *L'Chaim* in the memo line, call us, or go online to our website. In the donate drop-down box, one option is *L'Chaim Israel*. Thank you for assisting us in making a difference, even for eternity, as doors are open for us to share gospel truths.

Is Left Behind Theology Being Left Behind?

By Jan Markell

Since I was old enough to understand it, I've believed, taught, and written about Dispensational Theology. I just call it "Left Behind Theology." Critics say it is a modern invention that came along in the 1800s. Please, read the Bible. The prophetic angle of Dispensationalism represents much of the Bible—at least one-third.

Dispensational Theology is bruised.

That should be expected since it provides a theological firewall against the raging antisemitism exploding around the world.

Definitions

Dispensationalism teaches a literal Antichrist, a literal "Time of Jacob's Trouble" or Tribulation, a literal Rapture, a literal Second Coming, a literal thousand-year Millennium, and distinct roles for Israel and the church. Israel has a glorious future. *God has made promises to her and will fulfill them, and the church has not replaced her.*

Since the 1970s, Hal Lindsey's *Late Great Planet Earth* and the *Left Behind* book and film series by Tim LaHaye have been the face of Dispensationalism. Millions of people read and viewed these products and finally put a name to what they already believed, just by reading the Bible.

The other option—Covenant Theology—does not see the promises to Israel as literal, but fulfilled in the church. It teaches Amillennialism, or we are in the Millennium now, and have been since the cross.

Leave It to Tucker Carlson

But now this theology—since it represents the truth—is under brutal attack. And wouldn't you know, Tucker Carlson has provided the platform to trash it. His guest, J.D. Hall, should be careful throwing stones.

According to *Ministry Watch*, Hall embezzled thousands of dollars from his church in Montana, was convicted of DUI, domestic abuse, and more. But he is Carlson's spokesman to trash the truth for nearly two hours.

Hall denigrates Christian Zionism, as does Tucker Carlson, who insists "a lot of people have died because of Christian Zionism." The program is titled, "Origins of Christian Zionism: How it Corrupted American Christianity, and Why It Is Finally Collapsing."

Blame it All on Darby and the Scofield Bible!

Carlson and Hall are not alone. It is no surprise that *The Gospel Coalition* writes an article titled "The Rise & Fall of Dispensationalism: How the Evangelical Battle Over the End Times Shaped a Nation." The title suggests Dispensationalism's impact has fallen.

John Nelson Darby gets all the blame by them, as well as the Scofield Bible. Darby would be shocked to hear what he is being credited for today!

But think about the accusation: Christian Zionism has corrupted Christianity. *That suggests standing by Israel has a cancerous effect.*

The early church was Dispensational and Premillennial. Sadly, the Reformers held on to the eschatology of Rome, and few got these issues

right, thus millions of church attendees are being misled in thousands of churches.

The Firewall

But it is true that Dispensationalism is bruised. *That should be expected since it provides a theological firewall against the raging antisemitism exploding around the world.*

Thankfully, God has raised up some modern spokesmen, theologians, authors, and more, who are pushing back. God knew we needed good theologians to share the truth today as we hurtle pell-mell into the very last days. I have featured two dozen of these theologians on my radio and video programming.

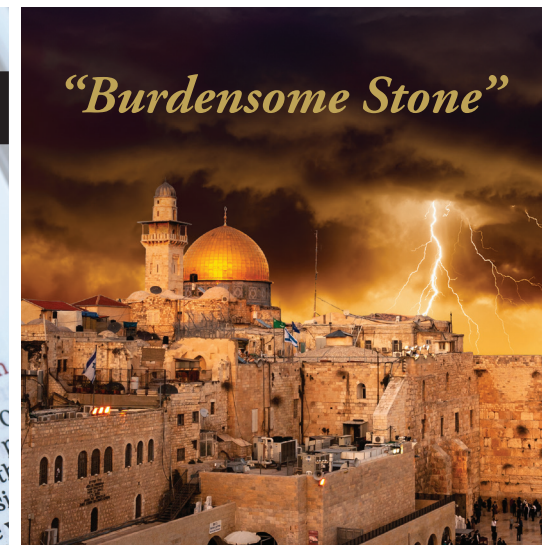

Replacing the Truth with Unsound Doctrine

Sadly, the 45 and under evangelical has pretty much abandoned Israel and Dispensationalism. They more readily embrace Covenant Theology and even Anglicanism. Many embrace the Palestinian cause and have no clue Yasser Arafat invented the people and Palestinianism. Younger people place great importance on social justice, not theology.

They suggest writers like me represent “doom and gloom” and have misplaced loyalties that actually put Israel before Jesus! *They say I am putting a damper on their future by suggesting the Rapture is imminent.*

“And in that day will I make Jerusalem a burdensome stone for all people: all that burden themselves with it shall be cut in pieces, though all the people of the earth be gathered together against it.” Zechariah 12:3 KJV

Leading to the Ultimate Abandonment

All of this is leading to the ultimate Israel abandonment spoken of in Zechariah 12:3, when Israel simply becomes the world’s “burdensome stone” and not the end-time marker, and signals that time is running out and Jesus is coming soon. *Israel is the clock; Jerusalem is the minute hand; the Temple Mount is the second hand.*

But it is true that the disfavor Dispensationalism is receiving is one reason people are having such a tough time finding a church. Only this theology gets Israel right, the end-times right, and how current events line up with the Bible. And space does not allow me to even address the problems with Postmillennialism and Preterism. You could perhaps do an online study on these false teachings. You can be sure they mangle Bible prophecy.

Who Needs God in an Age of Artificial Intelligence

By Jan Markell

When I first began hearing about artificial intelligence (AI) years ago, I don't think anyone could perceive its dangers. Clearly, it had end-time significance. Surely this would assist the Antichrist in his "buying and selling" scheme.

But God gives intelligence. How does mankind create it? And the honest question is, would it be a blessing or a Frankenstein? How about both?

There Have Been Ominous Warnings

A decade ago, I read the title to some articles that were stunning. One was, "Ex-Google Executive Anthony Levandowski is Founding a Church Where People Worship an Artificial Intelligence God."

Another story was headlined, "Why Humans Will Happily Follow an A.I. Robot Messiah."

Microsoft founder Bill Gates says, "AI will either be the greatest equalizer ever invented, or the worst source of injustice. It could accelerate medical discoveries, help doctors diagnose, provide farmers in poorer countries with better agricultural advice, make government services easier to navigate, and give teachers tools to personalize education."

Then he backtracks and says he doesn't think the world is ready for it.

AI experts have made further warnings. I began assembling comments a decade ago. Here are just a few:

- ➔ The human era could be ending and machines will take over.
- ➔ He who develops AI rules the world. We won't be able to control it.
- ➔ We are summoning up demons. **Be very careful.**
- ➔ We are playing with fire.
- ➔ AI could become smarter than humans and could become a god.
- ➔ AI could be the worst event in the history of civilization as machines could win.

The Warning That Went Around the World

In September of this year, a former employee of Open AI and Anthropic stated, "I resigned from Anthropic today. Neither company is acting responsibly. They are gambling with our lives. Don't underestimate the power of this technology. These will soon be superhuman systems that can hack anything, revolutionize any field, and acquire real power."

He concludes, "The people building AI believe that it could kill us all by the end of the decade. This is not a marketing stunt. No other human activity poses this level of danger."

Justifying a Global Government

Here is how one man could control all buying and selling. Could it play a role in the "image of the beast"? Why not? And as critics are warning now, AI could simultaneously create the crisis used to justify global government—and provide the technological machinery necessary to operate it.

Global crises are just that—they are global. The threat is global, therefore the solution must also be global. The end-time scenario requires a one-world leader. *The technology is here.* Maybe this new religion isn't the promise of paradise after all. Some promoting AI are evangelists and some of them offer a new Promised Land it would seem. But some of the very movers and shakers of the artificial intelligence industry are sounding serious warnings. If we're summoning up demons as one suggests, this is a type of Frankenstein in the wrong hands.

Who Needs God in an Age of Artificial Intelligence?

Young people are particularly drawn to artificial intelligence. Some will tell you that they can get an answer more quickly from Google or Alexa than they can from God. *Who needs God in an age of artificial intelligence?* Who needs an invisible God? And Google or Alexa may tell you what you want to hear in Technicolor, 3-D, and instantaneously!

But, as I have pondered here the last few years, I agree with those who are saying *this is the second super sign of Christ's return.* The first was the dry bones coming back to life (Ezekiel 37); the second is this 21st century technology that will be the key to the Antichrist kingdom.

AI Is Fearfully Fraudulent

AI cannot speak anything into existence or give anyone eternal life. It cannot give anyone comfort, guidance, or offer anyone peace or hope. It cannot still the wind or calm the sea. It is trying to be like God but will fall far short! We are fearfully and wonderfully made. *AI is fearfully fraudulent.*

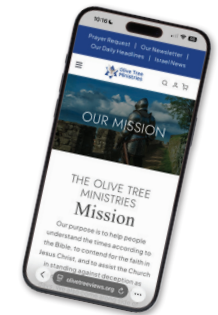

I know President Trump has renamed this "Super Intelligence" or SI, but I believe only God possesses that, and He distributes it in small portions to mankind.

God Cannot be Superseded by Computer Chips

Events of the Tribulation are casting a shadow today. He is coming soon! God sits in the Heavens and laughs at these people (Psalm 2). He will allow them a short season of notoriety and then will crush the evil doers at His Second Coming. The biblical vision of the future does not conclude with humanity being exterminated by its machines. In fact, it culminates in Jesus ruling and reigning. God created mankind in His image, not to be superseded by computer chips.

About Jan Markell

Jan came to faith at age 11 under Jewish evangelist Dr. Hyman Appleman. She has authored ten books. She was the host of Understanding the Times Radio for over 25 years, heard on 1,000 stations. In 2017, Lamb & Lion Ministries declared her one of the leading Christian voices in America. She hosted the largest prophecy conference in America until 2019.

God Performed a Miracle in the Sky.

A Divine Intervention!

On September 30, 2026, **God performed a miracle in the sky.** The Mideast airline carrier Flydubai, carrying primarily Jews, hired an Omani pilot—Hamam al-Hammani—who *intended to crash a passenger jet into Ben Gurion Airport or a Tel Aviv skyscraper.* The co-pilot behind the attack aboard Flight FZ1073 told interrogators that his intention was to use a passenger aircraft as a weapon of mass destruction.

While flying over Saudi Arabia, al-Hammani stabbed the pilot and the plane plunged 17,000 feet in less than a minute. Passengers were able to subdue the terrorist and avert a tragedy on the ground. The plane landed safely. The pilot, who had been severely stabbed, was able to unlock the cabin door.

Here's what most people don't know. It took just about an hour for the "false flag" accusation to appear. The facts were still emerging. A captain had been stabbed, the plane had plunged thousands of feet, and passengers had prayed Shema Yisrael, believing they might die.

Yet Israel and the Jews were already being blamed. There were claims that Israel staged the incident. That the Mossad was behind it. Thousands of conspiracy posts followed, blaming Israel, Mossad, Zionists, or Jews for what happened.

Think about that. An attempt to crash a plane packed with Israelis was being minimized, while Israel was being accused of orchestrating the whole thing. This is the struggle Israel faces daily.

"He that keeps Israel neither slumbers nor sleeps." (Psalm 121:4)
